Lacey

I'm an Austrian farm girl and spent seven incredible weeks at "The Cottage". My Australian trip was my first big trip alone and I am very happy to have had a very good start with Chris and Deb. I shared the accommodation with the other girls, we had our own small house and everybody had their own bedroom. For food and drinks Deb went shopping weekly and we cooked our meals together every day. On our day off we were able to take the car and spend the day in Melbourne or do daytrips for example.

The main duties were feeding the horses, rugging them and work them. Therefore, it is important to have previous experience with horses. Every horse has its own character but most of them are very calm and I loved all of them. At the very end it was hard to say goodbye to the horses and also to all the people I have met.

I enjoyed the unforgettable time so much and got to know a lot of nice Aussies.

For me the ranch will always be a special time of my life and I am very happy to have met such nice people.
